SUMMARY

I am student pursuing a degree in the nanotechnology field with focus on Industrial Electronics. I am a certified AWS Cloud Practitioner after successfully completing and passing The AWS restart training that entailed gaining skills in Cloud Computing, Python, Information Security, Linux, Databases, and Networking. Recently, I was accepted to Moringa School under the Access Scholarship funded by MasterCard to study Software Engineering for 6 months. Also in my books is an ongoing AWS Solutions Architect online training program for 3 months after which hopefully, I will be certified giving me the much-required skills sought after in today's and the future's outlook of the job market.

EXPERIENCE
